Low Lift pumping set for Davanagere water works

Sir

Adverting to Government Order No 11/17-11 1939 dated sanctioning an estimate for the electrification of Davanagere Water Works for Rs 24,975/- I have the honour to state that the high lift pumps and the motors required for driving the gear of the filters have already been ordered by the Secretary, Stores Purchase Committee

2 The Sanitary Engineer reports that quotations obtained by the Secretary, Stores Purchase Committee indicate that the cost of the most suitable low lifting pumping set could be about Rs 5,500/- F O P Harihar as against a provision of Rs 4,000/- for the purpose in the sanctioned estimate Owing to the unsettled condition of the market, the price of the high lift units already ordered by the Stores Purchase Committee are being put up by the Manufacturers from time to time, so much so it is likely that the cost of the low lifting pumping set also may go higher

3 I therefore request you to be so good as to obtain and convey sanction of Government to the purchase of the low lift pumping set at an extra cost of about Rs 2,000/- through the Stores Purchase Committee

4 A copy of the letter No 25 dated 4th July 1941 of the Sanitary Engineer in the matter is enclosed for the information of Government

I have the honour to be,
Sir,
Your most obedient servant,
P Parthasarathy

Enquiry No 4607 - Low lift pumping set for Davanagere Water Work

--

I have the honour to state that in Government Order dated 11/17th November 1939 an estimate amounting to Rs 24,975/- has been sanctioned for the electrification of Davanagere Water Works and the high lift pumps and the motors required for driving the gear of the filters have already been ordered by the Secretary, Stores Purchase Committee Bangalore

Quotations for the low lift pumping set were obtained by the Secretary, Stores Purchase Committee, Bangalore and forwarded to this office for necessary recommendation On a perusal of the comparative statement of cost it is noticed that the cost of the most suitable unit will be about Rs 5,500/- F O R Harihar, as against a sum of Rs 4000/- provided therefor in the sanctioned estimate, so that there will be an excess of Rs 1,500/-

The prices of the high lift unit and the electric motors already ordered by the Secretary, Stores Purchase Committee are being put up from time to time by the manufacturers owing to the present unsettled condition of the market and it is probable that in the case of the low lift units also, the prices may go higher

Under the circumstances, I request that orders of Government may kindly be obtained to place orders through the Secretary, Stores Purchase Committee, Bangalore, for the low lift pumping units at the extra cost of about Rs 2,000/- Pending receipt of orders in this connection, I have written to the Secretary, Stores Purchase Committee, Bangalore, not to order for the above pumping units
